

*Hamilton Builders welcomes you into some of the beautiful homes that we have been fortunate enough to build. You will see different architectural styles and detail throughout our homes. We pride ourselves on offering the ability to help our clients achieve one-of-a-kind creations when crafting their homes. Whether working to create an ornate French Provincial home or a rustic South Louisiana feel, we work tirelessly with our clients to ensure that the detail of their homes reflect their personality, style and vision. We make their dream homes a reality.*

*Hamilton Builders is a husband and wife team, Jonathan and Melissa Hamilton. Jonathan graduated from Louisiana State University in Baton Rouge and Melissa graduated from Ole Miss. He began working as a carpenter in the construction business while in high school. Jonathan aspired to be a home builder since he was a little boy. He worked his way up the ladder in the construction business. Jonathan and Melissa were childhood friends, dated after college and became a construction team.*

*Jonathan said, "We feel so blessed to have worked with so many wonderful families throughout construction of these homes. We work with excellent tradesmen and produce a superior product of fine craftsmanship. We pride ourselves in making sure that the home exceeds the expectation of the client."*
